

cleanser-polish

gloss-enhancing paint refiner

Product Function

cleanser-polish is an easy-to-use paint refining product, containing ultra-fine abrasives to remove light oxidization, fine hologram-like scratching and minor paint defects. cleanser-polish is not a cutting compound or harsh abrasive polish. This material may be used on all automotive finishes including water-based and clear coats.

How to Use

Thoroughly wash vehicle with hot soapy water, only use salt-free automotive shampoos. Do not use wash and wax products. Dry vehicle using chamois leather, or synthetic equivalent.

Shake bottle well. cleanser-polish should only be used on cool surfaces. Apply by using the dampened soft-white foam applicator pad supplied, cotton cloth can also be used, and for increased mechanical action is preferred where paint correction is required. Use light to medium pressure in circular motions, apply to whole vehicle or panel by panel. Allow haze to form before buffing to a high shine with the micro-fibre buffing cloth supplied.
